

Miss Bunny Feet and Robot Mike - Steve Weeks

From my bed I can see
Funny little Miss Bunnyfeet
Sittin' on my dresser lookin' back at me
Got those floppy ears and chubby cheeks

And there's Robot Mike
Back on the shelf for the night
Between my lucky pocketknife
And race car number 5

And when I close my eyes
The two of them have got big plans tonight
They'll stay up all night while I sleep
They'll dance all around my room
And sing underneath a nightlight moon
I can see them running free
Though my dreams

I've known Miss Bunnyfeet all my life
She's seen me though some real bad times
She might be old but her stitching's fine
She's got a heart of gold when you hold her tight

Robot Mike, well he spends his days
Zoomin' around the milky way
He'd like to settle down someday
But you know he's just not wired that way

And when I close my eyes
The two of them have got big plans tonight
They'll stay up all night while I sleep
They'll dance all around my room
And sing underneath a nightlight moon
I can see them running free
Though my dreams

Miss Bunnyfeet is watchin' me
She waits so patiently
Because she knows that eventually
I'll give up the ghost and go to sleep

And when I do it's time
She can count on Robot Mike
To pick her up and take her for a ride
In race car number 5

And when I close my eyes
The two of them have got big plans tonight
They'll stay up all night while I sleep
They'll dance all around my room
And sing underneath a nightlight moon
I can see them running free
But I feel myself drifting off to sleep
So it's time to say goodnight
To Miss Bunnyfeet and Robot Mike
