

DOG BEACH

Riding through San Diego
My head out the car window
My ears are flapping in the wind

It's just my best friend and me
He's taking me down to the beach
Where I can run with all my friends

And I've got so much joy inside my heart
I feel so happy can't help but bark
There's just no place in this old world where I'd rather be

*Down at Dog Beach
Cut me loose and I'll run free
And feel the sand underneath my feet
And the sun shining down on me
It's just like they say
Every dog must have his day
And I'll have mine down by the sea
Off leash
On Dog Beach*

I'll run and jump right in the surf
Shake the water from my fur
Then chase my friends and wrestle in the tide

I'll dig a hole just because I can and then
Have a roll in the sand
I could not stop my tail from wagging even if I tried

There's so much joy inside my heart
I feel so happy can't help but bark
There's just no place in this old world where I'd rather be

*Down at Dog Beach
Cut me loose and I'll run free
And feel the sand underneath my feet
And the sun shining down on me
It's just like they say
Every dog must have his day
And I'll have mine down by the sea
Off leash
On Dog Beach*

They're surfing out past the breaks
Maybe I could do that too someday
Until then I'll just chase the waves back into the sea again

My best friend throws a ball down the sand
I'll chase it down fast as I can
I'll never let him down
I will always bring it back to him

With so much joy inside my heart
I feel so happy can't help but bark
There's just no place in this old world where I'd rather be

*Down at Dog Beach
Cut me loose and I'll run free
And feel the sand underneath my feet
And the sun shining down on me
It's just like they say
Every dog must have his day
And I'll have mine down by the sea
Off leash
On Dog Beach*
