

## **Close Your Eyes Willy Boy**

I know you've got a lot to do  
When you close your eyes so blue  
On a dream drift away  
And sail across the Milky Way

### **CHORUS:**

Starlight will be your guide  
Close your eyes Willy boy  
The moon wishes you luck tonight  
Close your eyes Willy boy

Sail across the midnight sky  
Going on a moon beam ride  
Collecting stars in a pail  
And catching comets by their tails

### **CHORUS**

Close your eyes now off you run  
I'll see you when the morning comes  
I'll know just where you've been all night  
By the twinkle in your eye

### **CHORUS**
